VHOLES

FOK MERCHANTS ONLY

TERMS, Etc.—The prices given in this list, are today's March 10, 1931, wholesale market quotations on SEEDS for Immediate shipment, and are made subject to market fluctuations and prior sale.

Goods ordered at open prices will be invoiced at our lowest prices on date of shipment. Bags charged for at value. All sales subject to loss or damage by fire, shortage or failure of crops, and contingencies beyond our control. Order by mall. Terms: Net cash. F. O. B. Mobile, Ala.

NON-WARRANTY—Van Antwerp's Seed Store gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs or Plants it sells, and will not be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once, and if the money has been paid for them it will be refunded.

CRO-TOX

All growers of seed corn are rapidly realizing the fact that crows, pheasants, blackbirds and other corn-pulling birds and animal pests, such as squirrels, woodchucks, gophers, moles, etc., are causing havoc and untold damages to corn while it is germinating sprouting and rooting, and that protection must be given growing corn during that stage.

A little goes a long way. Its cost to use per acre is but 15c to 20c. Therefore, you should not think of planting corn without first treating it with "Crow-Tox."
